Toothpicks in dispenser box, birch wood 1000 pieces

The toothpicks made of natural birch wood offer a practical and hygienic solution for everyday use. Thanks to their sturdy construction and smooth surface, they sit comfortably in the hand and are ideal for restaurants, hotels, bars, cafés, catering and private households. The toothpicks can be used both for dental care after a meal and for serving small snacks, canapés and finger food. The practical dispenser box with 1'000 pieces allows easy and clean removal and offers an economical solution for regular use in the hospitality industry.
